World leader of on-site photobook solutions

Everyday Photobooks

The perfect size with up to **30 pages** and up to **100 pictures**. Photobook is **a perfect gift** and the best way to preserve **everyday memories**.

Photobooks are meant to be shared, that is why we use **stain resistant and scratch-proof paper**.

Your customers will love its ease of use!

The software completes an album with limited input required from the consumer. With just five clicks, an **aesthetically pleasing album is automatically created**.

Thanks to our chronological sorter, the software composes pages like your customer would have done it!

Your staff will love its autonomy!

Compact: Less than **7 sq.ft - 0.65 m²**

Labor free: Fully automatic products ready for customers pick-up

High profitability: Up to **50%** gross margin

Productivity: **6 min 40 s** for a 20 page photobook

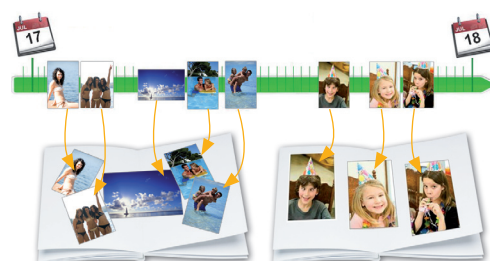

Capacity: 28 photobooks, with an average of 16 pages, without changing consumables

Easy maintenance: Paper, ink ribbon and adhesive roll are simultaneously replaced in less than 3 minutes

Our photobooks feature a **glossy finish** beautifully showcasing your pictures, completed with the album title printed on the spine.

Chronological page layout:

More customization functions are available in the home version of the software.
